

The Seaboard Advantage

At Seaboard Bindery, we have the knowledge, experience and production capabilities to help you turn great ideas into attractive pieces. Even the “simple” projects need advance planning to turn out properly. Involve us early in your project to be sure the final product meets both your demands and those of your clients.

Services offered:

- Perfect Binding
- Mechanical Binding
- Saddle Stitching
- Die Cutting
- Folding
- Film Laminating
- Index Tabbing
- Design & Planning
- And More!

The laminating on my digitally-printed products always peels. Why?

Digitally-printed products can be difficult to laminate, as commonly-used laminating films aren't designed to adhere to many of the inks and toners currently available. Some laminators have found success by adding a more aggressive adhesive to the film laminate that allows it to fix firmly to unprinted area surrounding ink and toner.

At Seaboard Bindery, we use an aggressive adhesive laminating film that works well on digitally-printed pieces. Give us a call to find out more about this solution, as well as our film laminating capabilities available for offset-printed products.
