

The Seaboard Advantage

At Seaboard Bindery, we have the knowledge, experience and production capabilities to help you turn great ideas into attractive pieces. Even the "simple" projects need advance planning to turn out properly. Involve us early in your project to be sure the final product meets both your demands and those of your clients.

Services offered:

- Perfect Binding
- Mechanical Binding
- Saddle Stitching
- Die Cutting
- Folding
- Film Laminating
- Index Tabbing
- Design & Planning
- And More!

Plenty of Index Tabbing Options

Index tabs are a great way to give books and ring binders a more organized and user-friendly appearance. At Seaboard Bindery, we give you several index tab design and production options, allowing you to create tabs that integrate seamlessly with any application:

MYLAR REINFORCEMENT

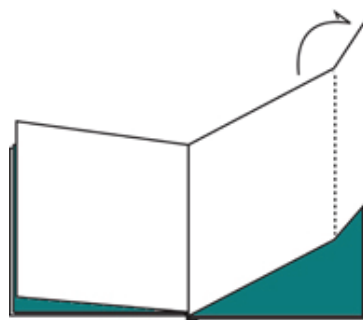

If your tabs will be used in a ring binder or other high-abuse application, they may benefit from Mylar reinforcement at the binding edge. Mylar lamination can also be applied to the tab itself for improved strength, and can be performed as an inline process on standard-shape index tabs.

DIE CUT TABS

In addition to standard index tabs produced inline, we can create custom die cut tabs in almost any shape you desire.

Keep in mind that if you desire Mylar lamination on customized die cut tabs, we would need to laminate the entire tab sheet.

FOLDOUT TABS

Foldout index tabs are ideal for perfect-bound books, as they won't be trimmed off during production. At Seaboard Bindery, we gather foldout tabs with your signatures for seamless production. Ask us for help with impositions prior to laying out projects.
