

The Seaboard Advantage

At Seaboard Bindery, we have the knowledge, experience and production capabilities to help you turn great ideas into attractive pieces. Even the “simple” projects need advance planning to turn out properly. Involve us early in your project to be sure the final product meets both your demands and those of your clients.

Services offered:

- Perfect Binding
- Mechanical Binding
- Saddle Stitching
- Die Cutting
- Folding
- Film Laminating
- Index Tabbing
- Design & Planning
- And More!

How do I know how thick the spine should be on my perfect bound book?

We usually hear this question when there are color breaks or copy that must fit on the spine. The best way to gauge the thickness of the book spine is to measure the exact stock to be used for production using a bulking dummy. When doing so, be sure to not add any bulk for glues. Attempting to compensate for glue bulk - which is insignificant - will result in misshapen or poorly-bound products.
